Perfection V850 Pro

DATASHEET

Featuring enhanced high-pass optics that deliver the highest level of image quality with faster scan speeds, the V850 Pro can convert a wide range of media and film formats into professional-quality digital images. This high-productivity 6400dpi scanner requires virtually no warm-up time, can remove dust and scratches automatically and includes two sets of highquality film holders.

Choice of resolution

The V850 Pro features a dual lens system that automatically selects the optimal lens, with up to 4800dpi optical resolution for photo scanning and 6400dpi when scanning using film holders.

Scan from any source

Scan a range of film formats in sharp focus thanks to the improved quality film holders with their adjustable height control and rigid design. The V850 Pro also supports film formats up to 8x10 inch when placed directly on the scanner glass.

High productivity

Epson's ReadyScan LED light source has a warm up time of less than one second, so scanning can start almost instantly. Two sets of film holders means you can prepare a second set of orginals for scanning while the first is still scanning.

Cleans-up images

Digital ICE Technologies automatically removes imperfections such as dust, hair, scratches and fingerprints from both film¹ and photos to restore images to their former glory with the minimum of effort.

The right tone

Take advantage of excellent tone reproduction with 4.0 DMax optical density. The V850 Pro can detect the exact tonal range of the original, making sure the brightest and darkest areas of images are accurately reproduced to reveal impressive detail and dynamic range.

Professional software

As well as Epson Scan, the V850 Pro comes with SilverFast SE Plus 8 and i1 Scanner software for advanced, professional scanning features.

KEY FEATURES

- Professional quality scanning Slides, film, medium format & prints
- Dual lens system Swaps between 6400dpi for slides and film, and 4800dpi for photos
- High productivity One second warm up time and two sets of film holders
- Dynamic range Accurately reproduce tonal range and gradation of the original
- Removes imperfections Digital ICE Technologies cleans-up old film and photos

PRODUCT SPECIFICATIONS

TECHNOLOGY	
Scanner type	Flatbed Scanner
Scanning Resolution	6.400 dpi (Horizontal x Vertical)
Optical Density	4 Dmax
Color Depth	Input: 48 Bits Color, Output: 48 Bits Color
Dual Lens System - scanning	Super Resolution Lens 6.400x9.600 dpi, High Resolution Lens 4.800x9.600 dpi
resolutions	
Scanning Range (maximum)	216 mm x 297 mm (Horizontal x Vertical)
Paper Formats	A4
SCANNER	
Optical Sensor	Matrix CCD with Micro Lens and High Pass Optics
Light Source	White LED, IR LED with ReadyScan LED Technology
Scanning Method	Fixed documents and moving carriage
Output Resolution	25~12,800 (1 dpi step) dpi
SCANNING FEATURES	
Image Improvement	Grain reduction, Dust removal, Print Image Matching II, Color palette tool for Easy Color Fix,
	Backlight Correction, Colour Restoration, Unsharp Mask with Noise Reduction, De-Screening
	with Document Type Optimizer, Digital ICE Technologies (for film and photo), Tone Curve
	Adjustment with Histogram
CONNECTIVITY	
Interfaces	Hi-Speed USB - compatible with USB 2.0 specification

Perfection V850 Pro

WHAT'S IN THE BOX

- AC adapter
- Driver and utilities (CD)
- Main unit
- Setup guide
- Software (CD)
- USB cable
- Warranty document
- Power cable
- 8 film holders: 35mm negatives (x2), 35mm slides (x2), medium format (x2) and 4 x 5 inch (x2)

OPTIONAL ACCESSORIES

 Epson Fluid Mount B12B818272

1. Effective Digital ICE film scanning area is 5.9 x 9.74 inches
